

Location: AMMON TEST NJ 35 East Blancke Street LINDEN, NJ 07036	Patient: ZZZ241001, RXMATCH DOB: REPORT 2 ID#: 1/2/1999 MRN: 24-275-036	Age: 25 Sex: Female
Physician: GAMBARDELLA, RON		
Accession# 241002NJTE06976 Coll. Date: Oct 2 2024 3:57PM	Recv. Date: Oct 2 2024 4:01PM	Report date: Oct 2 2024 4:04PM

Order Comments

Order Choices Ordered

Amphetamine LC-MS/MS, Urine, Drugs of Abuse Screen EIA, 15 Drug Panel, Urine, Specimen Validity Testing, Urine

Order Choices Pending

None

Prescribed Medications: Amphetamine, Promethazine

TEST RESULTS SUMMARY

CONSISTENT - Suggest that the patient has been taking medications as prescribed

Drug/Metabolite	Result	Interpretation	Remarks
Amphetamine	550.0 Positive	Consistent	Amphetamine is a metabolite of Methamphetamine. Its presence is consistent with Methamphetamine (Desoxyn medication or illicit drugs like Crystal Meth). Amphetamine (Adderall) is also available as a prescription drug.

INCONSISTENT NEGATIVE- Suggests that the patient has not been taking medication as prescribed

Drug/Metabolite	Result	Interpretation	Remarks
NONE			

INCONSISTENT POSITIVE - Suggests the patient may be taking illicit or unprescribed substances

Drug/Metabolite	Result	Interpretation	Remarks
NONE			

Medications Not Tested

Promethazine

SPECIMEN VALIDITY TESTING

Test	Result	Interpretation	Reference Ranges	Units
Creatinine	100.0	Normal	20-350	mg/dL
Oxidants/Nitrites	Negative	Normal	<200	ug/mL
pH	8.0	Normal	4.5-9	
Specific Gravity	1.010	Normal	1.003-1.035	g/mL

TOXICOLOGY RESULTS

Test Name	Results	Out of Range	Cutoff	Detection Window
Drug Screen (Presumptive)				
Drug Screen (Presumptive)				
AMPHETAMINES SCREEN		Positive	<1000 ng/mL	
BARBITURATES SCREEN	Negative		<200 ng/mL	
BENZODIAZEPINES SCREEN	Negative		<200 ng/mL	
COCAINE SCREEN	Negative		<300 ng/mL	
EDDP (METHADONE MTB) SCREEN	Negative		<100 ng/mL	
METHADONE SCREEN	Negative		<300 ng/mL	
MARIJUANA/THC SCREEN	Negative		<50 ng/mL	
OPIATES SCREEN	Negative		<300 ng/mL	
OXYCODONE SCREEN	Negative		<100 ng/mL	
PHENCYCLIDINE/PCP SCREEN	Negative		<25 ng/mL	
6-AM (HEROIN MTB) SCREEN	Negative		<10 ng/mL	
ALCOHOL SCREEN	Negative		<50 mg/dL	
ETHYL GLUCURONIDE / ETG SCREEN	Negative		<500 ng/mL	
*Ethyl Glucuronide is an unstable alcohol metabolite that may not be available for retesting when requested.				
BUPRENORPHINE SCREEN	Negative		<5 ng/mL	
ECSTASY / MDMA SCREEN	Negative		<500 ng/mL	
Confirmation (Definitive)				
Amphetamines LC-MS/MS				
AMPHETAMINE		550.0 Positive	<100.0 ng/mL	3 Days
Amphetamine is a metabolite of Methamphetamine. Its presence is consistent with Methamphetamine (Desoxyn medication or illicit drugs like Crystal Meth). Amphetamine (Adderall) is also available as a prescription drug.				
METHAMPHETAMINE	Negative		<250.0 ng/mL	

EIA results are Presumptive only/Numerical values are semi-quantitative.

LC-MS/MS Results: These tests were developed and their performance established by Ammon Analytical Laboratory. They have not been approved by the FDA.

All Toxicology Specimens will be disposed of 21 days from receipt in laboratory.
